Re: Mr. James Walbert, Implant of Foreign Device

To Whom It May Concern:

I have been acquainted with Mr. James Walbert for over three years and his personal struggle to get relief from the continuing electronic harassment, physical abuse and intimidation he is subjected to. I have complete confidence in the honesty and character of Mr. Walbert. He is an individual who is exhausting all avenues to get the RFID implanted device removed from his body.

There is sound medical evidence and medical evaluation to verify that an implanted device does exist in the body of Mr. Walbert. Dr. John Hall, who is experienced in reading MRIs, has confirmed that a foreign body, and most likely a microchip, is present in his body. The type of foreign bodies in Mr. James Walbert has also been confirmed by Dr. Hildigard Staninger, Industrial Toxicologist, of the Integrative Health Systems, LLC. Their evaluation confirms that it is a severe medical necessity to have these foreign bodies removed for the safety of Mr. Walbert. This has also all been confirmed by William Taylor, a recognized expert in the field of Technical Surveillance and Counter Measures.

Ms. Melinda Kidder, owner of Columbia Investigations, has investigated the claim and has been professionally involved in this matter and has found all reports, materials and claims to be factual and credible.

To summarize, technicians, medical clinicians and physicians, private detective agencies and other mental health professionals have verified the accuracy of reports and MRI scans about James Walbert. This leaves us with one decision to be made and that is to have the implanted microchip removed from James Walbert's body. I implore those who have the experience and authority to remove this device or devices from the body of Mr. James Walbert as soon as possible. It is a humanitarian issue to let Mr. James Walbert return to a normal life.

Sincerely,
